DETAILED ACTION

1. Claim 2 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Reference to drawing in the claims is improper. Therefore, in claim 2, "(Figure A)" must be deleted.

2. The disclosure is objected to because of the following informalities: Applicant's specification must be amended to include reference to the new drawing numbering.

Appropriate correction is required.

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 2-5 are rejected under 35 U.S.C. 102(b) as being anticipated by Thompson (USPN 5,697,630).

Thompson shows a locator assembly 10, 16 that locates a trailer tongue 23 over a ball hitch 18 for hookup (see Figure 2 of Thompson). The locator assembly 16 has two angled sides 21 and a flat back wall 20 and is removable from a locator mount 10. The locator mount is mounted using a ball mount bolt and has stabilizers 12, 13, 15 for the locator assembly.

5. Claims 1, 3, and 5 are rejected under 35 U.S.C. 102(b) as being anticipated by Hammons (USPN 6,234,510).

Hammons shows a locator assembly 42 that positions a trailer tongue over a ball hitch E. The locator assembly is removable from a locator mount 20. The mount is held in place by the ball mounting bolt F and remains in place when the locator assembly is removed. The mount includes stabilizers 28, 30 for the locator, as broadly claimed.

6. Claims 1 and 2 are rejected under 35 U.S.C. 102(b) as being anticipated by Vass (USPN 5,779,256).

Vass shows a locator assembly with a pair of angled sides 22, 23, and a flat back wall 21.

7. Applicant's arguments with respect to claims 2-5 have been considered but are moot in view of the new ground(s) of rejection.

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
